LIBRARY PROFILE

1. Introduction :

Library is the place where the greatest of the greatest things are kept for the use of one and the all. It is the Library which can be run without any organization, but any Educational Organization/Institution can't run without the library, because Library is the heart of any Institution or Organization. From the beginning of our college, our library also developed.

Our college was established in 1994. In this foundation year the collection of the Library was 144. The Collection included text as well as reference & other books.

The total collection of the Library is 9469. We have 36 periodicals in the Library. In we have started NLIST Library Consortium. Our library is fully computerized.

Like this the collection of the library is increasing day-by-day and it will become richer and richer in future.
